QuickKart
Merchant Compliance Self-Certification

Periodic self-certification against the NPCI UPI Procedural Guidelines

Reporting period: Q2 FY 2026-27 (quarter ending 30 June 2026)

1. Merchant profile and certification scope

QuickKart Retail Pvt. Ltd. is an online marketplace merchant accepting UPI payments through its acquiring bank. This self-certification covers the quarter ending 30 June 2026 and certifies compliance against the NPCI UPI Procedural Guidelines: the settlement and reports obligations of Annexure I on the payment side, and the Annexure XIV app checklist on the service side.

Executive summary

QuickKart certifies full compliance with all three Annexure I settlement scenarios and with 38 of the 40 mandatory Annexure XIV checklist items covered by this certification. Two items are certified Partial with committed remediation dates. Independent evidence references are maintained in the evidence register (section 5) and are available to the regulator on request.

Statuses in this document are self-attested by the merchant. "Compliant" means the control or app function is live and evidenced; "Partial" means it is live with stated limitations or in remediation; "Non-compliant" means it is not implemented as of the reporting date. Evidence references resolve through the evidence register in section 5.

2. Payment Compliance Self-Certification

Self-certified status against Annexure I (Settlement & Reports) of the NPCI UPI Procedural Guidelines: first the three settlement scenarios of the Annexure I settlement table, then the settlement, reconciliation and reports obligations stated in the same annexure.

2.1 Settlement scenario readiness (Annexure I settlement table)

Sr	Settlement scenario (Annexure I)	Compliance Status	Merchant Response / Evidence
1	Sending Bank live in UPI & Recipient Bank live in IMPS only (Debit in UPI, Credit in IMPS; Settlement in IMPS)	Compliant	IMPS credit-leg raw files ingested daily; scenario-1 transactions reconciled T+1 against bank IMPS raw file; zero unresolved breaks at quarter end; ref QK-REC-2026-Q2-S1.
2	Both the Sending & receiving Bank live in IMPS (Credit in IMPS; Settlement in IMPS)	Compliant	IMPS-to-IMPS flows reconciled inside the existing IMPS recon stream, matched to acquirer MIS daily; ref QK-REC-2026-Q2-S2.
3	Both Banks live in UPI (Debit in UPI, Credit in UPI; Settlement in IMPS)	Compliant	Separate UPI DSR consumed daily for UPI-credit transactions; auto-matching of UPI raw file vs DSR vs ledger; ref QK-REC-2026-Q2-S3.

2.2 Settlement and reports obligations (Annexure I notes and reports availability)

Ref	Obligation (Annexure I - Settlement & Reports)	Compliance Status	Merchant Response / Evidence
OB-1	Download all settlement files (Raw data file, NTSL/DSR, STL) daily from DMS/RGCS	Compliant	Automated SFTP pull of Raw, NTSL/DSR and STL files at each cutover; job logs ref QK-SET-2026-Q2-001..091.
OB-2	Perform reconciliation as per the guidelines issued by NPCI from time to time	Compliant	Reconciliation SOP v4 aligned to NPCI RGCS circulars; recon tool v3.2; zero breaks older than 2 days.
OB-3	Maintain a separate operations and reconciliation team for day-to-day settlement activities	Compliant	Dedicated 6-member settlement operations & reconciliation team, separate from finance; org chart ref QK-ORG-2026.
OB-4	Verify accuracy of the Daily Settlement Reports against own transaction data	Compliant	DSR figures verified daily against internal switch data; variance report auto-generated; ref QK-DSR-2026-Q2.
OB-5	Meet the daily settlement obligation (no more than two failures in a month)	Compliant	Zero settlement-obligation failures in the quarter; funding buffer maintained at 1.4x average net debit.
OB-6	Letter of authority to RBI for net debit/credit of the settlement account, via sponsor bank	Compliant	Board-approved letter of authority on file with sponsor bank; ref QK-LOA-2024-11.
OB-7	Consume the separate UPI DSR for transactions where the credit request is processed through UPI	Partial	UPI-credit DSR consumed daily, but STL automation falls back to manual download on RTGS holidays; full automation scheduled Aug 2026; ref QK-STL-2026-07.
